

Anti-Age Extreme Line

Intensive anti-ageing therapy
that rejuvenates and firms the skin!

The therapy uses active ingredients for mature skin

Hydromanil

forms a smoothing film that enhances hydration, softness and elasticity. Rich in amino acids and proteins, it nourishes and protects against water loss

Diamond dust

a luxurious brightening agent that boosts radiance, reduces imperfections and stimulates microcirculation. Provides natural glow and UV protection

Quercus Lift

developed by Popławska Group for mature skin. This natural polymer complex with suberin creates a lifting network that firms the skin, reduces wrinkles and redefines facial contours for a more youthful appearance
